

WHERE QUALITY COMES TO THE SURFACE

## Media Data Sheet

### GUYSON METALBEAD®

GUYSON METALBEAD® is a soft iron spherical media and is produced after sieving and mechanical treatments following atomization of molten iron.

It can be used in centrifugal wheel-type as well as suction-blast and pressure-blast cabinets.

**Typical Applications (*without dimensional changes to components*):** Removing heat treat scale from components and sintered powder metal parts; cleaning of extrusion dies; cleaning of glass molds; cleaning of tire molds; de-flashing of delicate components; removing corrosion from machined surfaces

**Appearance/Color:** GUYSON METALBEAD® is gray/black metallic and very symmetrical and spherical.
