

WHERE QUALITY COMES TO THE SURFACE

Media Data Sheet

STAINLESS STEEL SHOT

Stainless Steel Shot is a spherical media that peens and cleans quickly and effectively. It is resistant to fracture and prevents surface contamination. (Stainless Steel Shot is available in AMS-S 13165, SAE J 441, and AMS 2431/4 certifications.)

Typical Applications: Cleaning aluminum and non-ferrous casting as well as forgings; peening; removing of heat-treating scale; surface preparation.

Appearance/Color: **Stainless Steel Shot** is smooth and round in shape and is metallic silver in color.

SIZES

Hardness range	302-653 HV (30-58 HRC)
