

WHERE QUALITY COMES TO THE SURFACE

Media Data Sheet

WHITE ALUMINUM OXIDE (Al_2O_3)

Also known as **White Alox**, it is an ultra-pure, iron-free product, the hardest of all the different types of alumina and is ideal for applications that need a high cutting ability, and when freedom from contamination is vital.

Typical Applications: Aggressive cleaning; removing corrosion and other surface deposits; roughening, etching and decorating; precision blasting of medical components; surface preparation for thermal spray coatings; scale removal; hard oxide removal; precision aviation and turbine blasting.

Appearance/Color: White Aluminum Oxide is white in color and angular in shape.

Hardness range	1567-2035 (8-9 MOH)
Apparent Density	1.76 g/cm ³
Package size	50 lbs.

Sizes Available

20, 24, 30, 36, 46, 54, 60, 80, 90, 100,
120, 150, 180, 220, 240
